The January number of the
Western World is to hand full, as
usual, of reliable information respect-
ing the western territories. A large
amount of space in the issue has
been devoted to describing and il-
lustrating Prince Albert and sur-
rounding country. The *Western
World* has become an important
factor in securing new settlers for the
country, and the January number,
full of facts relating to this particular
district should prove a valuable as-
sistant to our local immigration
committee, which is already moving
in the matter of sending out agents
in the interests of settlement.

It is no exaggeration to say that
two of the most remarkable and
signal victories ever gained by the
Conservative party were scored in
Lennox and Prince Edward, which
have both pronounced emphatically
in favor of the Government and its
policy. The voice of Ontario was
never better able to express itself
upon the political issues of the day
than through the elections of these
two constituencies, and if there has
been up to now the slightest doubt
or hesitation as to the real sentiment
of this great province, we have it
unmistakably indicated in these two
contests. The counties are two of
the old battle grounds of the parties,
where the ebb and flow of public
opinion have alternately recorded
victory for one side or the other.
They are border constituencies,
where Unrestricted Reciprocity
ought to find potent lodgment if it
has any real hold on the commercial
instincts of our people, and Prince
Edward is perhaps, par excellence,
the great barley county of the pro-
vince, carrying on for years a direct
grain trade with Oswego and other
ports across the lake. The consti-
tuencies, being so closely divided
politically, would also be the first
to feel the effects of any defections
from the Conservative party on
account of the scandal campaign so
industriously worked up against it.

The London Canadian *Gazette*
expresses satisfaction with the re-
turns of Anglo-Canadian trade for
1891 as disclosed by the statistics of
the British Board of Trade. The
exports to Canada increased from
£4,841,973 in 1890 to £4,877,
586, this, be it remembered, in a
year when British exports to nearly
every other country in the world
declined considerably. Canada,
therefore, in 1891 was a good mar-
ket for the British trader, particu-
larly in cotton, jute and linen piece
goods, in worsted fabrics, in car-
pets, in hardware and cutlery, in tin
plates and in wearing apparel. In
these lines the exports to the United
States show a decided falling off,
so one result of Unrestricted Reci-
procity, the extension of the Mc-
Kinley tariff to Canada, would re-
sult disastrously to British com-
merce. Let any business man con-
sult the figures and see for himself.
Turning to the other side of the ac-
count we find that the imports from
Canada increased from £9,324,934
in 1890 to £9,401,320 in 1891, and
the individual increases are very
satisfactory to the Canadian farmer,
being in wheat, flour, cheese and
butter. But for the inactive con-
dition of the lumber market, there
would have been a much larger ex-
pansion of trade, and it is gratifying
to note that the Canadian *Gazette*
believes the bottom of the depres-
sion in the lumber trade is being
approached.

The British Iron Trade Associa-
tion issues an official return of the
present condition of business in the
United Kingdom. In addition to
the figures dealing with exports,
which have already been given in
the Board of Trade returns and ac-
cepted by the press generally as
proving the serious effects of the
McKinley tariff on the British iron
industry, the present statistics in-
clude the imports of iron and steel
into the United States. The new
duty has practically prohibited im-
ports of cotton ties and hoops, of
which 15,000 tons were taken dur-
ing the year before the duty came
into force. Scrap iron, bar iron,
scroll iron, steel and wire rods have
decreased about twenty per cent all
round; other lines have decreased
as much as 50 per cent. Iron and
steel goods not affected by the rais-
ing of the duty have increased, show-
ing how carefully the McKinley law
was constructed with the view of
benefiting the United States at every
point.

The name Canada is becoming
synonymous with products and
achievements belonging to the first
class. The tendency is good; let
it go on. The Canadian steamers
on the Pacific Ocean are earning a
great name for speed. A Hong
Kong paper of recent date says:
"His Excellency Sir W. Robinson,
the new Governor of the colony,
arrived at Hong Kong on Decem-
ber 10 in the Empress of Japan. The
steamer was expected at 11 a.m.,
but arrived two hours before that
time, having made the run from
Shanghai in 49 hours, the fastest on
record." Japan advises to the same
paper complained that while letters
which had come via Vancouver had
been delivered before that date, the
steamer from San Francisco—which
left that port four days before the
Canadian boat left Vancouver hadn't
yet got in.

A British jury the other day, ig-
noring the well-known precedent of
Solomon's decision between the two
women who claimed the same child,
tried, according to the provisions of

the English statute law, an exactly
similar case, which came before the
Recorder's Court in Hull. In the
ancient case the child was given to
the woman who wept, whilst in the
Hull litigation the lady who cried
aloud in court "My child! my child!"
was sent to jail for twelve months.
She is described as a praying wo-
man, who wore a veil and the name
of Slater, and, although there was
no direct proof, the jury found that
she had stolen the child from the
real mother. The decision rested on
the weight of medical testimony—
a matter which Solomon, with his
greater wisdom and readier jurisdic-
tion, absolutely overlooked.

The Ottawa *Journal* has a habit
of speaking out. Hear it. "We
say that no virtues, no ability, no
energy, in a word nothing that be-
longs to Wilfrid Laurier's character,
can justify the people of Canada in
entrusting him with power when his
confidence is given to and his coun-
sels so prominently participated in
by an alien and a traitor who sold
his pen to the enemies of Canada
at a time when it was thought this
country could be ruined by trade
barriers set up by the United States."
This is the opinion of a great many
people who don't call themselves
Conservatives either.

The election in the county of
Soulanges resulted in the election
of the substantial majority of 118,
of Mr. Bain, Conservative, who thus
captures the seat from the Opposi-
tion and scores a significant victory
for the Dominion Government. The
gain is all the more satisfactory be-
cause no local or exceptional reason
can be assigned, save that the county
reverses its verdict of March last
through weariness and disgust with
the Opposition policy.

If Chili be really compelled to
salute the Stars and Stripes, and
thus enable the Balmacedist friends
of Egan to overthrow a patriotic ad-
ministration which has offered a
more than ample apology to the
United States Government, it will
in plain language and in the opinion
of the world, be an outrage.

CANADA'S EXHIBIT AT THE FAIR.

An Ottawa dispatch says: Prof. Saunders, commissioner to the World's Fair, has returned to the city from a visit to Chicago, where he made preliminary arrangements for the Canadian exhibit. The commissioner says he was received most cordially by the officers of the fair, who were gratified to find that Canada intended to co-operate heartily to make the fair a success. He interviewed the heads of the different departments, and, after he had concluded his rounds and made his calculations, he decided to ask for 95,000 square feet of space, but this does not include provision for Canada in the fine arts and fisheries annexes; that the total space required will be in the vicinity of 100,000 square feet.

On his return home the commissioner found applications from Ontario implement manufacturers asking for 5,000 square feet in the agricultural implement building, and as this will take all the space set apart for Canadian exhibitors in this department the commissioner has decided to ask for 5,000 feet additional in the agricultural implement building. Eighteen thousand feet have been applied for in the agricultural building, 3,000 of which will be allotted for dairy products and the remainder for agricultural products. In the pomological department 10,000 feet of space has been requested.

Prof. Saunders left with the director general a formal memorandum on behalf of the Canadian Government setting forth indexed the amount of space required, and he is expecting by every mail to hear that his request has been acceded to. A list is being prepared of Canadian exhibitors to the Centennial, Colonial, Paris and Jamaica Exhibitions to each of whom a circular will shortly be forwarded urging upon them the desirability of assisting in every way to make the Dominion exhibit at Chicago a creditable one. The commissioner will be in Toronto shortly attending the meeting of the Central Farmer's Institute, when he will embrace the opportunity of discussing with cattle breeders and others the amount of space they will require. He will also interview some of the larger Toronto exhibitors and afterwards proceed to Hamilton and London on a like mission.

CHILIAN RIOTERS SENTENCED.

New York, Feb. 5.—The Herald's special cablegram from Valparaiso, Chile, says: "Judge of Crimes Foster today passed sentence in the long pending and much discussed Baltimore assault case of October 16, 1892. His sentence is subject to review by the Court of Appeals. The document covers 180 pages, and goes all over again the evidence against the accused and compares it closely with the evidence presented by the prisoner. The finding of the court is as follows:

Charles Arena alias James sentenced to 54 days imprisonment for wounding William Turnbull, the coal heaver of the Baltimore who died of his injuries; 33 days for disorder; 60 days for carrying a knife and 20 days for giving an assumed name. This makes a total of 220 days.

Jose Rhumada was sentenced to 320 days imprisonment for injuring Turnbull.

Frederic Rodriguez was sentenced to 130 days for wounding Boatwain's Mate Charles Riggins, another of the murdered American seamen, for public disorder and for carrying a knife.

It is held by Judge Foster that the evidence does not show that Rodriguez killed Riggins. On the contrary, it is claimed that Riggins's death was caused by a shot which was fired by some unknown person.

Gomez and Rodriguez, under the Chilean penal laws must pay the families of Turnbull and Riggins damages. These damages are recoverable by civil suit.

GENERAL NEWS.

Toronto, Feb. 4.—The Conservatives carried both Prince Edward and Lennox today, winning the latter from the Liberals. The majority of Wilson in Lennox is 31, out of Miller in Prince Edward, 210. The size of the latter majority is a general surprise. In March last, Miller won by only 21.

Nominations for the by-elections to be held next Thursday were made to-day as follows:

North Victoria—J. A. Barron, Liberal; S. Hughes, Conservative.

South Victoria—C. Fairbairn, Conservative; F. Walters, Liberal.

Halifax—A. G. Jones and Dr. Farrell, Liberal; T. E. Kenny and J. F. Stairs, Conservatives.

East Middlesex—J. Marshall, Conservative; George Taylor, Independent.

East Bruce—H. Cargill, Conservative; R. E. Fraux, Liberal.

Peel—Joseph Fatherston, farmer, Reform; and James Jackson, farmer, Conservative.

Kingston, Feb. 4.—The Liberals have nominated William Hart for the vacancy in the local legislature caused by the resignation of J. H. Metcalf.

Ottawa, Feb. 4.—In the exchequer court yesterday, Henry Bulmer, jr., of Montreal, entered suit against the Queen for \$200,000 in respect to certain timber limits in what was formerly known as the disputed territory on the Manitoba boundary. Thirteen cases from British Columbia and two from Nova Scotia were also entered.

The department of justice has been notified of the appeal of the Manitoba School act test case of Barrett v. the city of Winnipeg to the English privy council.

C. H. Mackintosh, M.P., says he will resign his seat for the city after the coming session.

The writ for South Ontario has been issued, nomination Feb. 13th, polling Feb. 20th.

The civil service commissioners inspected the customs department this morning.

Belleville, Feb. 4.—Some lumber camps in this county have been broken up by grappe. Four deaths took place in one camp from the disease.

Aylmer, Que., Feb. 4.—The court has set aside Murray's election for Pontiac, but he is not disqualified.

Chicago, Feb. 4.—The World's Fair conference committee, representing the local directory and the national commission, has drawn up the bill for congressional aid. An important feature—one that will cause a big row here—is that no sum is specified. The members from the local body are agreed that in view of the feeling in congress and the difference between some of the directors and some members of the national board of control, to ask for \$5,000,000 would be suicidal. Congress will be asked to appropriate an amount to be determined by that body, on recommendation of the national commission.

Montreal, Feb. 4.—Mrs. Elspeth Smith, widow of the late William Stephen and mother of Lord Mount-Stephen, died today of agrippa complications. She was a native of Scotland, and aged ninety.

St. John's, Nfld., Feb. 4.—The Conservatives of Two Mountains to-day nominated Joseph Girouard, notary of St. Joseph, to contest this constituency at the by-election caused by the death of Mr. J. B. Doust. For Liberals have no candidate in the field yet. Doust was a Conservative.

Waterloo, Que., Feb. 4.—The Conservatives of St. Field have nominated A. F. Savaria, advocate of this town, for the local legislature. Dr. De Grosbois, the former member, is running as an independent Liberal.

Kingston, Feb. 4.—Edward Taylor Darnall died here yesterday. He was an old newspaper man, being at one time proprietor of the Limerick Standard, and also a writer on the London Times. Subsequently he was manager of the Provincial Insurance company of Toronto.

The Times joins with their many friends in wishing them many happy years of life in their new sphere.

The picturesque surroundings and startling incidents of the fighting in Acadia in the middle of the last century are grouped by the masterly hand of Professor C. G. D. Roberts around the bones of an interesting story, "The Red and Black Jour," in the February *Dominion Illustrated Monthly*. The tale is well illustrated, and promises to be unusually attractive in every way.

The weather still keeps fine with a flurry of snow once in while to keep sleighing good.

Our old townsman Mr. M. J. Butchart came in on yesterday's train, and is stopping at the Queen's. It is five years since Mr. Butchart pulled out from here, and he is both surprised and pleased at the advancement and improvement made in the town during his absence. Mr. Butchart will remain about a month, renewing old acquaintances, when he will return to Stockton, Man., where he is now engaged in business for himself.

G. R. Russell has removed his butcher business from his old stand to the one recently occupied by John Macdonald & Co., who have retired from business. The business will be conducted by Mr. Russell, and known as Geo. R. Russell & Co., first door west of MacArthur's banking house, where Mr. Russell will be pleased to attend to the wants of his many customers.

Mr. W. Sanderson, who is organizing a Lodge of the Independent Order of Foresters in our town, delivered a lecture on that subject in our Saskatchewan Hall on Friday evening last. There was a large attendance of citizens present, who listened with marked attention to that gentleman's instructive and able remarks on this subject. Mr. Sanderson intends organizing at once, as he now has a large list of intending members.

Last Wednesday evening a most enjoyable entertainment was given in Saskatchewan Hall, under the auspices of the St. Andrew's Society. Mr. John Stewart, the president, introduced the lecturer, Bullie Stewart, and then the fun commenced. The lecture was of a descriptive character, interspersed with song and story, showing the home life of the Highlander. The ballie must be heard to be appreciated. The Scotch portion of the audience, especially those who understood the Gaelic, and in fact all present, thoroughly enjoyed this entire change from usual Prince Albert programme. After the entertainment, a large party gathered in the dining hall of the Queens, where an oyster supper had been gotten up in honor of the lecturer. After justice had been done the good things laid before them, the balance of the evening was spent in speeches, songs, etc., and a most enjoyable time was spent.

Before proceeding to the election of officers, Dr. Jardine moved, seconded by Mr. Montgomery, that a vote of thanks be tendered the retiring officers for the able and efficient manner in which the business of the Board had been conducted during the past year. Carried unanimously.

The retiring president, Mr. Davis, replied on behalf of himself and the other officers of the Board.

The election of officers then took place, when the following gentlemen were selected to do duty during the ensuing year: President, J. E. Young; Vice-President, J. R. McPhail; Secretary, A. S. Stewart; Treasurer, E. J. Cain; Council—S. J. Donaldson, G. S. Davison, T. O. Davis, F. C. Baker, J. D. Maveety, J. Taylor, J. Stewart, Dr. Jardine, J. W. Toogood, H. J. Montgomery, G. C. Several matters of interest to the town were brought before the Board, and received a fair discussion, but no conclusions of a definite character were arrived at.

The Board then adjourned.

"August Flower"

There is a gentleman at Malden-on-the-Hudson, N. Y., named Captain A. G. Pareis, who has written us a letter in which it is evident that he has made up his mind concerning some things, and this is what he says:

"I have used your preparation called August Flower in my family for seven or eight years. It is constantly in my house, and we consider it the best remedy for Indigestion, and Constipation we have ever used or known. My wife is troubled with Dyspepsia, and at times suffers very much after eating. The August Flower, however, relieves the difficulty. My wife frequently says to me when I am going to town, 'We are out of August Flower, and I think you had better get another bottle.' I am also troubled with Indigestion, and whenever I am, I take one or two teaspoonfuls before eating, for a day or two, and all trouble is removed."
